Moore County Department of Human Resources (General Fund)

Department Narrative:

The Human Resources Department, in partnership with all departments, is committed to recruiting, developing and retaining knowledgeable, customer-focused employees in a healthy and safe work environment. Therefore, the Human Resources Department tracks turnover, level of employment and length of vacancies. A consistently large number of vacancies can indicate an excessive amount of turnover and/or positions that are difficult to fill and therefore remain vacant for long periods of time. Both of these indicators alert the Human Resources Department of areas needing attention. Moore County's manpower includes 664 full time and 6 part time positions. The chart is a snapshot of each month's turnover and employment level.

Moore County Department of Risk Management (Internal Service Fund)

Department Narrative:

The Moore County Risk Management Fund administers health and dental insurance and voluntary benefit products, interprets policy and program covered benefits and assists with claim resolution. In addition, the fund administers the property and liability, and workers compensation (WC) insurance coverage, coordinates the safety program, loss control, claim handling and general risk management services for County departments. Risk Management is responsible for the payment of the following: W/C Premiums, W/C Claims, Property and Liability Premium, Wellness Works Staffing Contract and all related expenses, Health and Dental Insurance Claims, Pharmacy Claims, Volunteer Benefit Products, Safety Events, Health Fair Expenditures and the Risk Manager's salary and benefits.

Experience modifier or ex mod is the adjustment of an annual insurance premium based on previous loss experience. Ex mod calculations use loss information and compare it to what is calculated to be 'average' losses for a company of similar size and line of work. NCACC uses three years of loss experience to determine the ex mod. The three years include not the immediate past year, but the three prior years. The ex mod for FY 14/15 for our policy that expired on June 30, 2015, would include loss data from July 1, 2010 to June 30, 2013. The calculated expected losses utilizes past audited payroll information for a particular employer, by classification code and State. These payrolls are multiplied by 'Expected Loss Rates' which are calculated by rating bureaus based on past reported claims cost per classification.

Moore County Department of Soil & Water Conservation (General Fund and SWCD Board Special Revenue Fund)

Department Narrative:

The mission of the Moore County Soil and Water Conservation District is to preserve the natural resources for all land users in Moore County by providing technical, educational and financial assistance. The number of acres that are planted using the rental equipment has shifted downward over the past couple of years. However, the number of renters has increased. This is a trend that has also shown up in the request for technical and financial assistance from our office. The size of individual farms is smaller than they once were. We have had a huge increase in the number of inquiries coming from individuals that are new to farming and are looking for ways to best manage their farm.
